Course Description

This introductory course covers a discussion on Christian theology & spirituality, a brief history of Christian spiritual traditions, and some common issues pertinent to Christian spirituality, such as prayer as relationship with God, self and others; sexuality; spiritual disciplines. The approach is both informative and formative, in order to facilitate participants’ discovery of own faith formation in the light of Scriptures, church history & tradition, and in own personal history. The learning process involves identifying elements of misconceptions that hinder our Christian growth. The emphasis is on integration of biblical theology and Christian spirituality as an integral whole through mystagogy, learning by experiencing the lived reality of God in an academic community. The aim is to discover one’s authentic spirituality that is rooted in the Bible and Christian traditions, and to experience the transforming power of the Holy Spirit at work in one’s humanity to become the man or woman whose heart is set on living for God’s Glory with Grace and Truth.
